Compounding WORLD

AMI's global digital magazine
and apps for polymer compounders

Compounding World is the monthly magazine providing business, industry and technology news for polymer compounders and masterbatch producers around the globe - our 33,590 email subscribers cover more than 150 countries. It is accessed by thousands of readers every month free-of-charge online, on tablets and smartphones, and via our free app for the iPad, iPhone and Android devices.

Compounding World delivers relevant and up-to-date information on the most important technical developments, market trends, business news and legislative announcements direct to readers' email inboxes or smart devices. And, unlike general plastics magazines, it is 100% focused on the specific information needs of compounders and masterbatch producers.

Published by our expert editorial team at AMI - the leading provider of databases, market intelligence, conferences and expos for the global plastics processing industries - *Compounding World* benefits from access to our detailed databases of senior decision makers at compounding and masterbatch/concentrate production sites across Europe, the Americas, Asia and the Middle East. These global databases include key purchasers of polymers, additives, compounding machinery and ancillary equipment built up over more than 35 years.

Our advertisements are very competitively priced and include links directly to your website. If you are selling machinery, ancillary equipment, materials, additives or services to compounders or masterbatch producers, then *Compounding World* is the vehicle to promote your business globally.

Compounding World offers:

- ✓ Comprehensive global coverage
- ✓ 100% focused on plastics compounding
- ✓ In-depth market knowledge
- ✓ Free access online and via app
- ✓ Direct email delivery
- ✓ Highly competitive advertisement rates
- ✓ Live weblinks from all advertisements
- ✓ App viewable without internet connection

Digital magazines for the digital age: online; on tablets; on smart phones

We lead the way with electronic magazines for the plastics industry

Compounding World combines the simplicity and familiarity of a printed publication with the additional features of online delivery and digital interactivity. Readers can forward links to articles – allowing valuable content to be shared with colleagues and customers – and download PDFs for storage and printing.

The magazine is available free-of-charge online using a standard web browser. Subscribers are notified of each new edition of *Compounding World* by email – an important benefit in our post-Covid world of mobile and remote working– with a single click taking them directly to the magazine (our 33,590 email subscribers cover more than 150 countries).

Compounding World can also be read on iPad, iPhone and Android-based devices using our free app, which has been downloaded more than 15,600 times from 127 countries and is extending our reach into key fast growing markets such as India and Thailand.

We also use our @PlasticsWorld **Twitter** feed to keep readers up to date with the latest plastics industry news and to let them know whenever we publish a new edition of *Compounding World* magazine. @PlasticsWorld has a global following of more than 21,400 people and is the most followed plastics industry news feed on Twitter.

Exhibition and show coverage

Compounding World covers all of these international plastics shows. Make sure you don't miss your chance to advertise. Check the Features List for more information.

AMI - Bringing the plastics industry together

Compounding World magazine is published by AMI, the international plastics data expert and organiser of the **Compounding World Expo Europe** and **Compounding World Expo USA**. These two focused exhibitions run alongside the Plastics Extrusion World Expo, Plastics Recycling World Expo and Polymer Testing World Expo and take place in Essen in Germany and Cleveland, OH, USA. The debut events each attracted more than 4,000 visitors.
