Plastics Recycling WORLD

AMI's global digital magazine and apps for the plastics recycling industry

Plastics Recycling World offers:

- ✓ Comprehensive global coverage
- ✓ 100% focused on plastics recycling
- ✓ In-depth market knowledge
- ✓ Free access online and via app (NEW)
- ✓ Direct email delivery
- ✓ Highly competitive advertisement rates
- ✓ Live weblinks from all advertisements
- ✓ App viewable without internet connection

Plastics Recycling World is the monthly magazine providing business, industry and technology news for all involved in the collection, sorting and recycling of plastics around the globe - our 25,339 email subscribers cover more than 150 countries. It is accessed by thousands of readers every month free-of-charge online, on tablets and smartphones, and for the first time this year, also via our free app for the iPad, iPhone and Android devices.

Plastics Recycling World delivers relevant and up-to-date information on the most important technical developments, market trends, business news and legislative announcements direct to readers' email inboxes or smart devices. And, unlike general plastics magazines, it is 100% focused on the specific information needs of the plastics recycling market.

Published by our expert editorial team at AMI - the leading provider of databases, market intelligence, conferences and expos for the global plastics processing industries - *Plastics Recycling World* benefits from access to our detailed databases of senior decision makers at plastics sorting, recycling and recompounding sites across Europe, the Americas, Asia and the Middle East. These global databases include key purchasers of polymers, additives, processing machinery and ancillary equipment built up over more than 35 years.

Our advertisements are very competitively priced and include links directly to your website. If you are selling machinery, equipment, materials, additives or services to plastics recyclers and recompounders, then *Plastics Recycling World* is the vehicle to promote your business globally.

Digital magazines for the digital age: online; on tablets; on smart phones

We lead the way with electronic magazines for the plastics industry

Plastics Recycling World combines the simplicity and familiarity of a printed publication with the additional features of online delivery and digital interactivity. Readers can forward links to articles – allowing valuable content to be shared with colleagues and customers – and download PDFs for storage and printing.

The magazine is available free-of-charge online using a standard web browser. Subscribers are notified of each new edition of *Plastics Recycling World* by email – an important benefit in our post-Covid world of mobile and remote working – with a single click taking them directly to the magazine (our 25,339 email subscribers cover more than 150 countries).

Since January 2021, *Plastics Recycling World* can also be read on iPad, iPhone and Android-based devices using our free app. The app versions of our four other plastics magazines have been downloaded more than 65,000 times and have extended our reach into growing markets such as China, India and Thailand.

We also use our @PlasticsWorld **Twitter** feed to keep readers up to date with the latest plastics industry news and to let them know whenever we publish a new edition of *Plastics Recycling World* magazine. @PlasticsWorld has a global following of more than 21,400 people and is the most followed plastics industry news feed on Twitter.
